## Chowaha Rules

The game is played with a button and blinds.

Each player is dealt two cards face down, followed by a round of betting at the small bet limit.

Three flop cards are dealt one above the other forming a 3x3 square of cards. This is followed by a round of betting at the small bet limit.

Two turn cards are dealt vertically to the right of the flop cards from the dealer's perspective. This is followed by a round of betting at the big bet limit.

One river card is placed to the right of the turn cards. This is followed by a round of betting at the big bet limit. This is followed by a showdown.

At the showdown, the board will look like this:

```

X X X
      Y
X X X   Z
      Y
X X X
```

The cards labelled X are the flop cards, the cards marked Y are the turn cards, and Z is the river card.

The best high hand wins the pot. The high hand consists of a player's two hole cards plus the cards from one flop, one turn adjacent to the flop being used, and the river. These may be played in any combination EXCEPT that board cards used CANNOT consist of the top row of the flop plus the bottom turn card or the bottom row of the flop plus the top turn card. That is, the flop, turn, and river must all be contiguous cards. Also, as in Omaha, each player must use both hole cards plus three cards from the board to form their hand.

Should a discrepancy in rules arise, Resorts World Las Vegas poker room rules will apply.

# Chaos No Limit Hold'em Tournament Structure

**Time:** Saturday, January 18, 2025 at 11:00 am  
**Location:** Resorts World Las Vegas  
**Cost:** \$150+30  
**Initial Chips:** 60,000  
**Rounds:** All levels are 20 minutes. 9 handed tables. Final table redraw at 9 players.

At the end of each level, chaos erupts! After the completion of the last hand of the level at tournament table 1, the button will move forward and the new button at table 1 will roll a die to determine the blinds for the next level (for the whole tournament field). Then each table draws for new seating – players are scrambled at each table but do not change tables. Finally, the button is redrawn at each table, and play resumes.

- |    |                              |
|----|------------------------------|
| □  | blinds decrease one level    |
| □  | blind level stays the same   |
| □□ | blinds increase one level    |
| □□ | blinds increase two levels   |
| □□ | blinds increase three levels |

The tournament will begin in level 1. The level cannot go below 0, so if a 1 is rolled at the end of level 0, level 0 will repeat. There will be a 10 minute break after every five levels. The first break may be extended for the EMBARGO Group Picture.

Each hand, the big blind will post an ante equal to the amount of the big blind. When the final table reaches four handed play, the ante amount will be reduced to the amount of the small blind.

**Reentry and late registration will be allowed until the end of the first break.**
